

Adham Francis I. Dababneh

Dear Sir / Madam,

I have recently earned my higher Diploma in 3D Digital Animation from SAE Amman, in 2010. My earlier accomplishment was my Master's Degree in Business Administration (MBA) from New York Institute of Technology (NYiT), in Amman in the year 2008 and the Bachelor's degree in Graphic Design from Al- Ahliyya Amman University was 2005.

I am always in search of new, challenging career opportunities, especially in the field of publishing and advertising design. I am at present employed at FAST PRINT as a Deputy Director, and I'm in search of a profession to benefit my career and gain corporate skills, which I anticipate gaining from your organization, as a full-time member.

To give a brief personal history, I am 30 years old and I was born in Amman, Jordan, and migrated to the United States at a later stage, where I grew up. I came back to Jordan at the age of 13, where I finished my education and the American Secondary High School System (SAT II). After graduating high school, I enrolled at the Al-Ahliyya Amman University majoring in Graphic Design, and as I spoke earlier in continuing my career in studying.

Therefore, I have been confronted with many cultures, educational systems and styles of life. I enjoy an active social life of multicultural acquaintances. My preliminary, yet diverse career experiences and training has helped in gaining focused skills. These experiences have been focused in Magazine publishing and Printing Press. I've had positions in our family business, Fast Print, Sharqiyat magazine as a layout designer, TrainEdge also as a designer and I am at present at FAST PRINT.

I have worked hard to build up my short career, and prepare it for further expansion and diversification to become a professional at a multi-national level. My aims are elevating at all times, and success is not an option. I strive for perfection in everything that I do and possess many creative abilities that I would apply in my profession at your organization. I thank you for your time and cooperation, and anticipate upon fitting your corporate standards.

Sincerely Yours,
